---

**Programming:** PHP - OOP - Laravel - Javascript - Vue - jQuery - MySQL - Bootstrap.

**Tools:** Postman · Git · Firebase · phpMyAdmin · Composer · Npm · Linux · Putty.

**Interests:** Problem Solving · Searching · AI · Programming Books.

## Experience

---

### Software Engineer (Remote)

#### Skill Builders IT Institute | 2025 – Present

- Working remotely as a Software Engineer, developing and maintaining web applications using PHP (Laravel) and JavaScript.
- Actively involved in designing and developing Learning Management Systems (LMS) with course management, user roles, and progress tracking.
- Developing MLM (Multi-Level Marketing) software based on complex business logic, including referral structures, commission calculation, and hierarchical user management.
- Contributing to project planning, feature development, and continuous system enhancements.

**Projects:** [skillbuildersit.com](https://skillbuildersit.com), [fundaaura.xyz](https://fundaaura.xyz)

### Software Engineer

#### RetinaSoft | 2023 – 2024

- Worked as a Software Engineer specialising in PHP (Laravel) and JavaScript-based web application development.
- Developed ERP systems, accounting and financial management solutions, car rental applications, and multi-vendor e-commerce platforms.
- Integrated secure payment gateways, including Stripe, bKash, and SSLCommerz.
- Focused on building scalable, efficient, and maintainable software solutions.

**Projects:** [bostonairportxpress.com](https://bostonairportxpress.com), [staging.ajaxtradingcorp.com](https://staging.ajaxtradingcorp.com), [rebusel.com](https://rebusel.com), [alhisab.app](https://alhisab.app)

### Software Engineer

#### Dhroobo Bazar Limited | 2022 – 2023

- Contributed to the development of DhrooboBazar.com, a full-featured e-commerce platform.
- Built and maintained backend services using Laravel.
- Developed frontend features using Vue.js for improved user experience.
- Assisted in performance optimisation and feature enhancements.

### Assistant Software Engineer

#### Kholabazaar International Limited | 2021 – 2022

- Worked on Kholabazaar.com.bd, an e-commerce platform built with Laravel and MySQL.
- Responsible for modifying existing modules and developing new features.
- Participated in new project development, such as Wave Tours & Travels and Wave Link, sister concerns of Kholabazaar International Limited.
- Supported backend development, database operations, and system improvements.

## Education

---
